

12-14-19

Dear directors and teachers of our Lithuanian folk dance groups:

As mentioned in my previous message, because of modifications to the original artistic plan, I am requesting all “student” dance groups to prepare all the dances in their category. If you plan to omit a particular dance or two, please let me know immediately.

Below is a list of dances that come paired together in the program:

Striuks buks
Žalnieriukas

Išjojo jojo
Nukalkim saulužėlę (the blacksmith dance)

Gegutėlė tupi
Juodberėlis
Sadutė
Rezginėlė

I also heard that several of the adult dance groups (“Vyresnieji”) aren’t planning to dance some of their dances. Please let me know details right away if that applies to your group.

Reminder: I previously requested that you provide me the average height of your boys in the teens category (“Jauniai”) so that we get started on sewing appropriately sized bags for one of their dances. So far only Tryptinis has responded.

Additionally, I’m anxiously waiting to hear who is planning to dance “Gegutėlė tupi” with soloists, and who will not have soloists.

Please understand that the creative committee has to start work on preparing the performance schematics for the arena. Without the above requested information, this is simply not possible.

May your holidays be beautiful and tranquil, and may you enjoy great success in your work!
